Pro Beauty Rebels

Rebels With A Cause - Shrinking Inches

When the first Tibby Olivier products appeared on the market 15 years ago, the concept of a fat busting body wrap Shrinking Violet was something entirely new, we felt like rebels when we developed the pioneering formulations. The aim was to make use of the powers of nature for skincare through the application of our knowledge and our own processes. Launching at a time when the professional body wrap really needed an overhaul, we offered a fresh perspective on natural ingredients that with innovation there where products that really delivered, offering skincare regimes and treatments that are completely unique.

With the worldwide success of Shrinking Violet, we expanded our body treatment range to encompass Shrinking Therapy, a spa rituals programme, firstly Shrinking

Violet slimming solution in a inch loss bath, followed by a Shrinking Inch Loss Massage or a Shrinking Violet Body Wrap or for a double dose Shrinking Extreme Boosting (massage & body wrap), our demand for these wonderful spa rituals grows worldwide daily. The Shrinking Therapy spa rituals programme was firstly exclusively used by The Sha Wellness Clinic in Spain and still remains one of their most popular treatment programmes at their weigh loss centre.

We have also devised a brand new slimming solution aimed at clinical practices, Shrinking Violet Lipo-Pro can be used as a stand alone formula for medical clinics & medi-spas, doctors & nurses or in conjunction with patients having liposuction, lasers, cavitation and ultrasound procedures.

We are always inspired to continue the passion brought to the company. 15 years later we still remain highly committed to the revolutionary spirit of our early days.

This year we launch Theradeep a completely new Therapeutic Massage Therapy and Massage Oils - with natural pain relieving qualities, and Blue Venom a high performance, next generation skincare range, targeting the multiple signs of ageing combined with blue light protecting actives, natural ingredients and recipes that not only beautify but nourish and care for your wellbeing too.
