THERAPEUTIC MASSAGE THERAPY

Training Courses

Theradeep

Our exclusive therapeutic massage therapy and accompanying massage oils are recommended for those that have chronic pain or suffer from fibromyalgia, arthritis, shoulder pain, backaches and headaches. A renewing therapy that hones your level of pressure, with therapeutic flow that allows for blood circulation, embodiment and relief of pain, relaxing and easing muscle tension with targeted focus for rehabilitating injuries.

Theradeep Therapy focuses on the different layers of tissue (muscle, tendons and fascia, trigger points, working to relax, lengthen, and release strain patterns within them so that the body's posture can realign itself. Physical and emotional traumas can tighten and stiffen these tissues. When this happens, the body moves out of a state of natural alignment and loses its flexibility and gravitational balance. Working Theradeeply does not necessarily mean applying lots of pressure. The techniques used in Theradeep therapeutic massage are also applied more slowly, so as to avoid causing the recipient discomfort when working deeply into the muscle and connective tissue, as well as allowing the nervous system to integrate the work.

Course Content & Learning Outcomes:

- Understand the general stretching guidelines
- Chronic pain
- Fantastic Fascia
- Trigger points
- How pain causing muscle knots form
- Neuromyofascial Lesion

Shrinking Violet

The Shrinking Violet body wrap system is for use by beauty professionals. It is a professional product and will not be for sale to the general public.

The main ingredient is an active phospholipid complex, which is pre-blended with essential oils containing a cellulite blend. The solution remains in the skin, and active, for 72 hours.

For maximum results we recommend a six week course combined with homecare. Shrinking Violet comes with its own homecare range comprising of the Shrinking Violet Home Kit, Shrinking Violet Cellulite Oil, Shrinking Violet Bums & Tums, Shrinking Violet Stretchmark Oil and Slimbathe, which contain less active ingredient and maintain the treatment between salon appointments. No need for wrapping.

Shrinking Violet Body Wrap is a painless, effortless professional process that can successfully remove inches in problem areas, such as thighs, buttocks and abdomen. The technique is so powerful, that a sixty minute session can shrink waistlines by up to 2 inches. The amount of reduction varies depending on build, but many people may reduce by at least one whole size after the first treatment. Immediate results can be seen. After 24 hours, up to 72 hours you will see the maximum effect.

Shrinking Tan

This specially formulated tan provides you with the tools to both shape and sculpt the clients body immediately using Spray Tanning Body Contouring techniques and infused with the active ingredient of Shrinking Violet. #ShrinkingTan.

What is it?

This shrinking tan is odourless, with great fade and a natural colour. The active ingredients from Shrinking Violet will continue to work over the 72 hours.

Is Shrinking Tan the same as Shrinking Violet?

No. Shrinking Violet will give the best immediate and continued results and the wrap system continues to be the optimum inch-loss treatment for clients. It's not an "either" "or" treatment. They should not be compared. Shrinking Tan is an alternative for clients who want a spray tan with a "bit extra" and who cannot have a spray tan due to the oil residue of the Shrinking Violet wrap.

Are there contraindications?

Yes. The client will need a full consultation before treatment.

Is there pre and aftercare?

Yes, to get the optimum results from the treatment pre and aftercare should be followed.

Is the tan washed off after 8 hours?

Yes, normal tan procedure.

Will the tan finish/fade be affected?

No, the active ingredients will not interfere with the tan process or finish.

Will I need to change my spray tan machine?

No.

Tibby Olivier presents Faith Lift, a non-surgical face lifting skin care system.

Faith Lift Mask

Faith Lift Mask is a naturally derived, skin-tightening mask, which will help physically lift sagging skin, reducing the appearance of lines and wrinkles. When applied, it forms an elegant film that will tighten and smooth the skin. This perceivable phenomenon is due to physical changes in the polymer structure of the polysaccharides as they dry on the skin. This gentle sensation of smooth skin will last for hours, in some cases days, without the skin flaking or leaving it overly tight. Faith Lift Mask is totally safe and non-invasive.

Faith Lift Cream

Faith Lift Cream is a vitamin-rich nourishing moisturizer which leaves skin smoother, firmer and complexion glows. Facial features are lightened and contoured.

Faith Lift Lip

Lip fullness is a sign of beauty and youthfulness. Faith Lift Lip is effectively a hyaluronic acid-based fractionated active, that is able to penetrate the epidermis. Faith Lift Lip plumps, redefines and minimizes fine vertical lines and keeps lip contour in shape, providing a more youthful and appealing look. It also includes a rich blend of oils, butters and waxes with vitamin E to nourish and protect lips from harsh environmental conditions.

Faith Lift Eye Cream

The Faith Lift Eye Cream has the Faith Lift herbal extract in a rich emollient base that is specifically designed for use around the eyes to rehydrate and provide essential healthy skin. It has an instant effect like the mask.

Faith Lift Finale

Reduces skin photo-damage effects and improves the appearance of lines and wrinkles. Also improves firmness and elasticity of the skin and skin smoothness. Decreases skin roughness and reduces discoloration and mottled pigmentation, rebalancing uneven skin tone.
